# Liposomal Glutathione

Supports antioxidant defenses and detoxification in an innovative liposomal form<sup>‡</sup>

### INDICATIONS

- Ages 18 and up
- Liver health and detoxification support<sup>\*</sup>

#### BENEFITS

- Supports liver health and detoxification<sup>‡</sup>
- Maintains healthy lipid metabolism and oxidative status<sup>‡</sup>
- Promotes protection from free radicals to support healthy cellular function<sup>†</sup>
- Liposomal form protects glutathione bonds from the degradation that can occur during digestion<sup>†</sup>

## **FEATURES**

- Offers the key antioxidant glutathione in an innovative liposomal form with enhanced absorption
- Shelf-stable

## **VERIFIABLE SCIENCE**

Liposomal Glutathione offers enhanced absorption glutathione for antioxidant, cellular and liver health support.<sup>1</sup> Liposomes are made from purified phosphatidylcholine, whose hydrophobic and hydrophilic properties facilitate the formation of a spherical particle that protects the bioactive from degradation and facilitates absorption across membranes.<sup>2</sup> Liposomes may also protect peptide bonds from enzymatic degradation that can occur during digestion. Glutathione is an antioxidant that protects the body from free radicals to support cellular function and homeostasis.<sup>3</sup> Glutathione is found in virtually every cell of the body and plays a critical role in protein synthesis, enzyme function, transport and cell maturation.<sup>4</sup> Optimal levels of glutathione have been associated with physical and mental health.<sup>5</sup> The highest concentrations of glutathione are found in the liver, where it provides antioxidant support and promotes phase II conjugation to support detoxification.<sup>6,7‡</sup>

#### SUGGESTED USE

As a dietary supplement, take 1 capsule, 1-2 times daily, with meals, or as directed by a health professional.

#### STORAGE

Store in a cool, dry place.

#### WARNING

If you are pregnant or lactating, have any health condition or are taking any medication, consult your health professional before use.

#### SOURCE

- Glutathione is sourced from corn glucose fermentation.
- The phospholipid complex is derived from soy.

## NOTES

Size 16 softgels Bottle count 30/60 Order code LSG3/LSG6

Bottle size 75 cc/190 cc

## SUPPLEMENT FACTS

## 1 softgel capsule, 1-2 times daily, with meals, or as directed by a health professional.

BioGlute <sup>™</sup> proprietary blend of glutathione and	375 mg
essential phospholipids	
Providing:	
Setria® glutathione	250 mg
Phospholipid complex	125 mg

BioGlute<sup>™</sup> is a registered trademark of Essential Nutraceuticals, LLC.

 $\mathsf{Setria}^{\circledast}$  is a registered trademark of KYOWA HAKKO BIO Co., Ltd.

Contains	soy

Liposomal Glutathione	Quantity	Order Code
